

**Social Sciences and Humanities Research Council of Canada**  
**Quarterly Financial Report**  
**For the Quarter Ended June 30, 2019**

## **Statement outlining results, risks and significant changes in operations, personnel and programs**

### **1. Introduction**

This Quarterly Financial Report (QFR) has been prepared by management as required by section 65.1 of the [Financial Administration Act](#) (FAA), and in the form and manner prescribed by the Treasury Board. It should be read in conjunction with the 2019-20 [Main Estimates](#). This report has not been subject to an external audit or review.

#### **1.1 Authority, mandate and programs**

The Social Sciences and Humanities Research Council of Canada (SSHRC) was established in 1977 by the Social Sciences and Humanities Research Council Act, and is a departmental corporation named in Schedule II of the FAA. SSHRC is a funding agency that promotes and supports postsecondary research and training in the social sciences and humanities to enhance the economic, social and cultural development of Canada, its communities and regions. Social sciences and humanities research builds knowledge about people in the past and present, with a view toward creating a better future.

Further information on the SSHRC mandate and program activities can be found in [Part II of the Main Estimates](#).

#### **1.2 Basis of presentation**

Management prepared this quarterly report using an expenditure basis of accounting. The accompanying Statement of Authorities includes SSHRC's spending authorities granted by Parliament and those used by the agency, consistent with the Main Estimates for fiscal 2019-20. This quarterly report has been prepared using a special-purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before the Government of Canada can spend monies. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

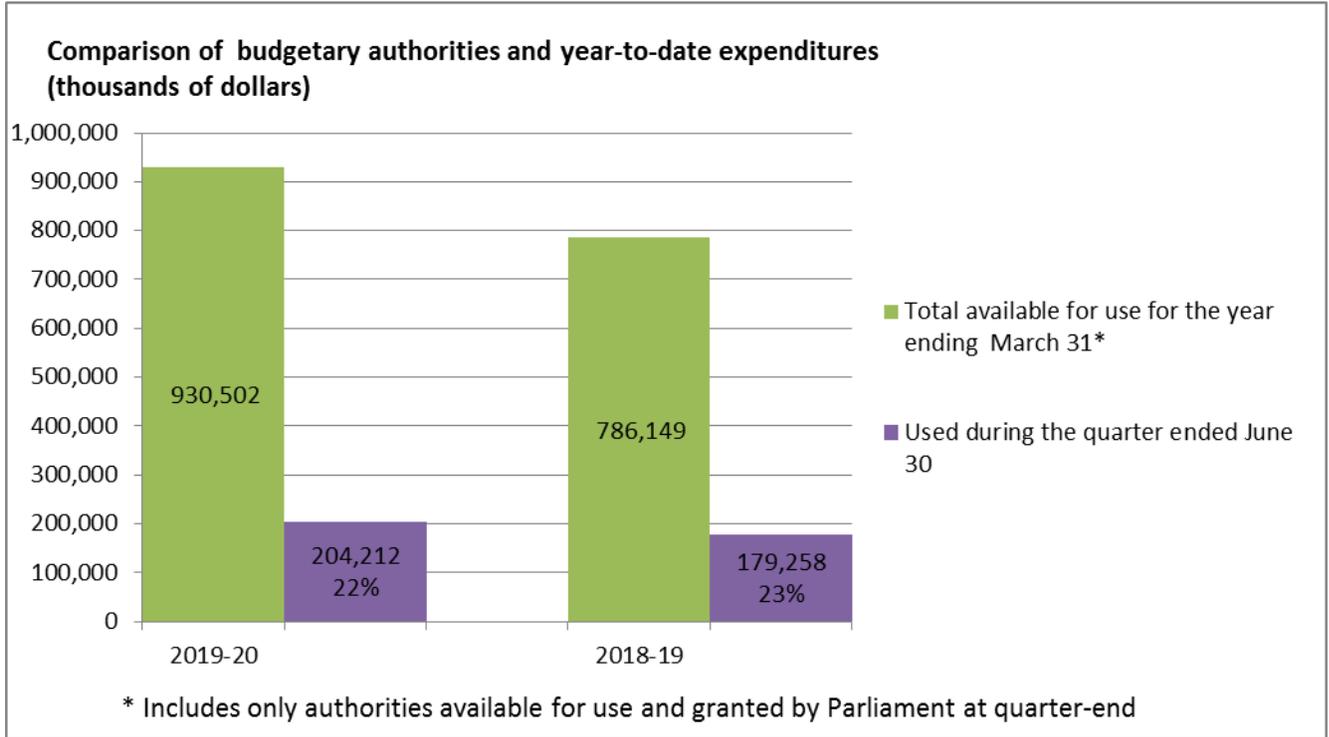

SSHRC uses the full accrual method of accounting to prepare and present its annual financial statements that are part of the departmental results reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

### **2. Highlights of fiscal quarter and fiscal year-to-date results**

This section highlights the significant items that contributed to the change in resources available for the fiscal year, as well as the actual year-to-date and quarterly expenditures compared with the previous fiscal year.

The following graph provides a comparison of budgetary authorities available for the full fiscal year and budgetary expenditures by quarter for fiscal 2019-20 and fiscal 2018-19.

**Social Sciences and Humanities Research Council of Canada**  
**Quarterly Financial Report**  
**For the Quarter Ended June 30, 2019**

**2.1 Significant changes to budgetary authorities**

As of June 30, 2019, SSHRC’s total available authorities for fiscal 2019-20 amounted to \$930.5 million. This represents an overall increase of \$144.4 million (18.4 per cent) from the comparative period of the previous year. The major changes in SSHRC’s budgetary authorities between the current and previous fiscal years include:

- an increase of \$57.2 million from Budget 2018 for the implementation of the New Frontiers in Research Fund supporting research that is international, interdisciplinary, high risk and fast-breaking;
- an increase of \$38.7 million from Budget 2018 to the Research Support Fund that provides researchers with the necessary space at postsecondary institutions to undertake research, and to improve accountability and reporting for the program;
- an increase of \$35.8 million from Budget 2018 to support investigator-led research in the social sciences and humanities;
- an increase of \$8.9 million from Budget 2018 to the Canada Research Chairs program that supports a diverse community of excellent researchers across all career stages at eligible Canadian postsecondary institutions, and to better support early career researchers;
- an increase of \$6.1 million from Budget 2019 to create more awards for graduate students through the Canada Graduate Scholarship program;
- an increase of \$1.4 million from Budget 2019 to expand paid parental leave from six months to 12 months for students and postdoctoral fellows who receive granting agency funding; and
- a decrease of \$1.9 million to the Centres of Excellence for Commercialization and Research program.

**Quarterly Financial Report**  
**For the Quarter Ended June 30, 2019**

**2.2 Significant changes to authorities used**

**Year-to-date spending**

The following table provides a comparison of cumulative spending by vote for the current and previous fiscal years.

**Year-to-date budgetary expenditures used at quarter-end**

(millions of dollars)

	<b>2019-20</b>	<b>2018-19</b>	<b>Variance</b>
<b>Vote 1 - Operating expenditures</b>			
Personnel	7.1	5.6	1.5
Non-personnel	1.1	0.8	0.3
<b>Vote 5 - Grants and scholarships</b>	196.1	172.9	23.2
<b>Total budgetary expenditures</b>	<b>204.3</b>	<b>179.3</b>	<b>25.0</b>

Total budgetary expenditures amounted to \$204.3 million at the end of the first quarter of fiscal 2019-20, compared to \$179.3 million reported in the same period in the previous fiscal year.

**Grants and scholarships**

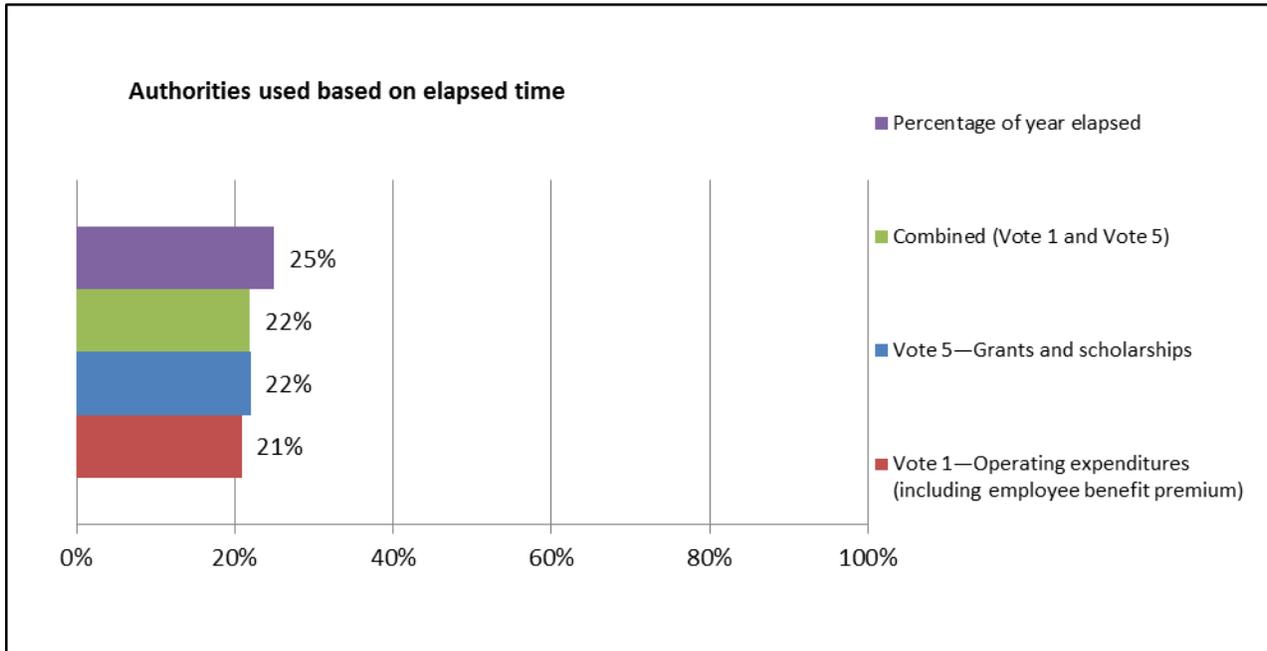

At the end of the first quarter of 2019-20, the grant and scholarship expenses increased by \$23.2 million, compared to what was reported in the same period of the previous fiscal year. The increase is mainly due to additional funding received from Budget 2018.

**Operating expenditures**

The personnel expenditures have increased by \$1.5 million compared to the same period in 2018-19. This increase is mainly due to the economic increase resulting from the renewed collective agreements approved during the second quarter of fiscal 2018-19 and additional full-time employees (FTEs) due to Budget 2018 implementation.

Total non-personnel expenditures have increased by \$0.3 million (34%), mainly due to increased spending in professional services and acquisition of office equipment, computers and mobile phones related to the increased number of employees.

**Social Sciences and Humanities Research Council of Canada**  
**Quarterly Financial Report**  
**For the Quarter Ended June 30, 2019**

Total authorities used during the first quarter of fiscal 2019-20 (\$204.3 million) represent 22 per cent of total available authorities (\$930.5 million).

### 3. Risks and uncertainties

Through the corporate risk identification exercise, SSHRC annually identifies and assesses corporate-level risks and develops response measures to minimize their likelihood and/or impact. Senior management closely follows the risks below to ensure they are continuously mitigated and that the residual risk level is acceptable.

#### Strategic risk 1—Ability to manage resources:

SSHRC's ability to deliver results is influenced by internal and external elements and opportunities, such as the grants management system development, the integration of and support to the newly created [Canada Research Coordinating Committee](#) (CRCC) and the Indigenous Research Strategy. SSHRC uses its corporate governance structures and relies on key planning documents, such as the strategic plan and the Departmental Results Framework, to ensure strong oversight of SSHRC's achievement of results. The substantial increase in SSHRC grants dollars announced in Budget 2018 creates an opportunity to demonstrate how SSHRC can efficiently deliver on crucial and fundamental themes for the benefit of a strong research ecosystem.

#### Strategic risk 2—Ability to manage change:

Planned activities in support of SSHRC objectives are vulnerable to the management of change. SSHRC has a number of key activities for 2019-20, which involve new technologies, evolving interagency governance structures, new collaborations and partnerships, new program directions and new

**Social Sciences and Humanities Research Council of Canada**  
**Quarterly Financial Report**  
**For the Quarter Ended June 30, 2019**

government priorities. To ensure successful completion and minimize unintended impacts on other projects and on operations, SSHRC continues to implement mandatory training, the People Strategy, the Performance Management Program, and other strategies to help ensure the appropriate development of employees in a changing work environment. In addition, SSHRC includes a change management component in most major projects.

**Strategic Risk 3—Ability to meet external stakeholder expectations:**

Management of stakeholder relations is a critical driver of SSHRC's success. To ensure effective management of diverse stakeholder relationships, SSHRC created the SSHRC Leaders, a group of institutional representatives. SSHRC Leaders provide an ongoing channel of communication between their institutions and SSHRC. The initiative helps all parties stay informed of developing issues and mitigates the risk of misalignment with stakeholders' priorities and values.

The Canada Research Coordinating Committee (CRCC) brings together heads of the three granting agencies—SSHRC, the Natural Sciences and Engineering Research Council (NSERC) and the Canadian Institute of Health Research (CIHR)—and the Canada Foundation for Innovation (CFI), as well as the National Research Council; Innovation, Science and Economic Development Canada; Health Canada; and Canada's chief science advisor. The committee builds on a tradition of cooperation between the three agencies and CFI. It has brought new visibility, resources and opportunities to meet the needs of Canadian researchers. The CRCC has recently presented their inaugural progress report, showing progress on national priorities such as:

- launch of the New Frontiers in Research Fund (NFRF),
- engagement with Indigenous communities, and
- implementation of policies and programs to support early career researchers and make equity, diversity and inclusion hallmarks of research excellence in Canada.

**4. Significant changes related to operations, personnel and programs**

[Changes to tri-agency policies regarding paid parental leave for graduate students and postdoctoral fellows:](#)

Following the announcement in Budget 2019, SSHRC, in collaboration with the CIHR and the NSERC, announced in June 2019 that the duration of paid parental leave for graduate students and postdoctoral fellows supported by the agencies is being doubled. The maximum duration will be 12 months instead of six for those on active paid parental leave on April 1, 2019 or later, including those that began their leave before this date. The change applies to holders of a graduate scholarship or postdoctoral fellowship from the granting agencies, as well as to students and fellows who are paid from a supervisor's agency grant.

The planned number of FTEs for 2019-20 increased to 288 from 231 in 2018-19. This increase is due to Budget 2018 implementation.
