

SSHRC Institutional Grants (SIG) Achievement Report

This achievement report offers the institution an opportunity to share the results of its grant and explain how it is contributing to a better future for Canada and the world. To demonstrate the impact of SSHRC-funded research, the information provided may also be shared with Parliament, the research community and the public.

Institutions must submit this report within three months of the end of its grant, including any extension. If it does not meet this deadline, the institution will be ineligible for future grants through this funding opportunity until the outstanding report has been received.

Visit the [Achievement reports page](#) for more information.

File number: _____

Name of Institution: _____

Institutional representative (Last name, First name): _____

Administrative Contact (Last name, First name): _____

Administrative Contact Email: _____

1.0 GENERAL INFORMATION

1.1 To what extent do you agree that the SIG contributed to research excellence at your institution during the reporting period?

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

1.2 How many internal funding programs are supported (wholly or in part) by SIG funds?

1.3 How many peer review committees were formed?

1.4 Indicate the number of SSH peer review committee members by category.

Field of study	Number of members
Social Sciences	
Humanities	
Other (<i>specify</i> : _____)	

- 1.5 Based on the categories below, indicate the percentage of the grant funds allocated to each type of grant or activity.

Please enter '0' in non-applicable fields.

Grant Type or Activity	Percentage of Total SIG
SSHRC Explore Grant	
SSRHC Exchange Grant	
Capacity building activity (<i>only for institutions that received a supplement</i>)	

2.0 GRANT OUTCOMES

- 2.1 Describe the contribution the SSHRC Institutional Grant has made to the global research strategy of your institution. Please refer to the statement submitted with the SIG application (300 words max).

- 2.2 How many students, postdoctoral researchers, and other non-students have been supported through the grant?

Please enter '0' in non-applicable fields.

Rank	Number
College students	
Undergraduate students	
Master's students	
Doctoral students	
Postdoctoral researchers	
Other (e.g., technician, professional research associate)	

2.3 How many research products have resulted from this grant funding?

Research Products may include traditional academic outputs such as peer-reviewed articles, books, conference presentations, etc., as well as other knowledge mobilization activities.

3.0 GENERAL REMARKS

3.1 **Optional** - Use the space below to provide any feedback to SSHRC on the program.
